

Sterlite

Overview

Sterlite Software USA, Inc. is a global Information technology solution provider and SBA 8a Minority Business Enterprise head-quartered in Oak Park, Illinois with two offshore development and services offices, located in Bangalore and New Delhi, India.

Sterlite provides a full spectrum of IT staffing and management services across a diverse set of technologies and for numerous industries both domestically and internationally, as an organization dedicated to providing effective technical and business solutions.

Key Initiatives

Pursuing a strong horizontal focus on E-Business, Business Intelligence, Embedded Systems, Mobile, Security and Web Services. Continuing a focused vertical market approach in retail, distribution consumer electronics and enterprise / consumer security insurance, and legacy integration/migration. Positioning Sterlite as one of the best solution providers in the above domain segments. Strategic Partnership and R & D Outsourcing with Fortune 50 Companies. Core Internal Research group (TEG) working in forth coming technologies. Expanding our global business presence through our Global Delivery Services.

Our Vision

To continue to be a respected provider of IT Services, Solutions and Products; acclaimed for our expertise delivering cutting-edge technology solutions.

Our Mission

To develop and deliver innovative solutions that meets and exceeds our clients' expectations with a focus on quality and customer service. One of our key goals is to integrate technology into your company in such a way as to provide that all-important competitive high-tech edge in today's demanding marketplace. Our commitment to excellence is shown through our understanding of our customers' businesses, our industry expertise, and our ability to provide a full suite of IT solutions. We undertake project development and are committed to providing high quality business solutions -- on time and cost-effective.

ORACLE®

PARTNER NETWORK

Sterlite is a certified Oracle Gold partner and an SBA 8a Certified Minority business.

"Sterlite built our solution supporting 3 lines of business and distinctive product lines. Their solution is supporting the functionality our previous vendor was unable to provide and this solution saves us on average \$100,000 weekly."

J.T.

"The Sterlite delivery team is the brain power on our largest most critical ATG implementations globally. "

J.M.

"As one of only 2 global training partners Sterlite can provide the scale and depth needed. "

"Sterlite's' cost to deliver our ATG Solution was nearly 30% lower than our previous vendor. They also provided functionality in 30 days which our previous vendor could not perform in 90 days."

"We found their knowledge and productivity in migrating data and integration our other enterprise applications with Oracle ATG to be key in driving out cost and improving customer satisfaction."

G.C.
